

SWING DOOR

802240

PRODUCT DESCRIPTION

The PELLET hinged shower door consists of a fixed part and a door with handle and magnetic seal.

The 6 mm thick safety glass with anti-limescale treatment provides increased strength and prevents limescale deposition for easy maintenance.

The screen-printed strips allow you to shower in complete privacy. With a height of 1950 mm, this wall prevents splashing. Available in Right or Left, it adapts to your needs and your shower configuration.

To ensure easy and durable installation, the wall is supplied with 2 glossy polished aluminium profiles: a standard 35 mm profile for a sleek design and an 80 mm wide profile.

Also supplied with the door is an adjustable and telescopic stiffener with articulated end caps allowing it to be positioned at 90 or 45 degrees.

This wall is available in 2 widths 1200 mm, 1400 mm and fits perfectly with FITÉO shower trays.
